

## **CASE STUDY:** K9 Resorts Improves Efficiencies with FranConnect for Sales and Operations Support

#### **About K9 Resorts**

K9 Resorts is an award-winning pet care facility founded in 2005 by brothers Steven and Jason Parker. K9 Resorts began franchising in January 2011, and today, the company has 10 locations throughout the East Coast, with many more in immediate development.

## **The Challenge**

K9 Resorts was rapidly growing as a franchise company and needed a technology solution to provide support to its franchisees and improve processes. Additionally, they needed a solution to bring together corporate and franchise owners for sales and operations support, streamline processes, and help the company stay on track while developing new franchises.

#### **Key Challenges:**

 Streamline processes throughout the franchise system, from operations support to opening new units.

- Connect corporate and local owners
- Improve lead tracking and candidate engagement.

### **The Solution**

K9 Resorts conducted a thorough review of technology partners and consulted with industry professionals, who all had positive feedback on FranConnect. In June 2016, the company partnered with FranConnect for sales and operations support. Within a few months of using FranConnect, K9 Resorts realized many business benefits, including improved lead tracking and franchisee engagement.

The same goes for the operations side of our business - FranConnect creates a central place for all of our current franchisee information, while at the same time keeping track of where future locations are in their development process."
